CRISSAN DONDRIANO

FULL-STACK DEVELOPER | REACT | TYPESCRIPT | | NEXT.JS | AI ASSISTED DEVELOPMENT

dondrianocrissan20@gmail.com | +639858266596 | Laguna, Philippines | https://crissan-portfolio.vercel.app/

SUMMARY

Full-Stack Developer experienced in developing, maintaining, and deploying web applications using React, TypeScript, JavaScript, Vue.js, and Laravel. Skilled in responsive frontend development, REST API integration, database design, authentication, debugging, and application troubleshooting. Hands-on experience building and deploying web applications using Vercel, Git, and GitHub. Familiar with AI-assisted development tools, including Claude Code, OpenAI Codex, Cursor, and OpenCode, for coding, prototyping, debugging, and optimization, with a focus on reviewing and testing generated code. Strong problem-solving skills and a commitment to clean, maintainable, and reliable software.

EXPERIENCE

Junior Full Stack Developer — *SwitchConnect PTY LTD, Remote* Sept 2024 - Jan 2026

- Developed and maintained responsive web applications using PHP, Laravel, Vue.js, JavaScript, MySQL, Bootstrap 5, and Tailwind CSS.
- Implemented frontend features, backend functionality, REST APIs, database schemas, third-party integrations, and application workflows.
- Developed authentication and role-based access control (RBAC) for multi-user client portal applications.
- Diagnosed and resolved frontend, backend, API, and database issues while collaborating with a remote Australian development team; received a Certificate of Excellence for professional performance.

Programmer Intern — *Public Employment Service Office (PESO)* Apr 2024 - Aug 2024

- Developed Linang, an interactive educational web application aligned with selected UN Sustainable Development Goals for classroom deployment.
- Implemented and tested frontend features, interactive components, and application workflows.

EDUCATION

Bachelor of Science in Information Technology — *Pamantasan ng Cabuyao* 2020 - 2024

SKILLS

- **Languages:** JavaScript, TypeScript, PHP, SQL, HTML5, CSS3
- **Frontend:** React, Vue.js, Next.js, Tailwind CSS, Bootstrap 5, Responsive Web Design
- **Backend & APIs:** Laravel, REST APIs, API Integration, Webhooks, Authentication, Role-Based Access Control (RBAC)
- **Databases:** MySQL, PostgreSQL, Supabase, Database and Schema Design
- **AI-Assisted Development:** Claude Code, OpenAI Codex, Cursor, OpenCode, OpenAI API Integration, AI-Assisted Debugging
- **Development Workflow:** Git, GitHub, Debugging, Application Testing, Code Maintenance
- **Cloud & Deployment:** Google Cloud, Docker, Vercel, Render, Vite

PROJECTS

Taskflow — *Task Management & Team Collaboration App* Aug 2026

Link : https://taskflow-philippines.vercel.app/

- Built and deployed a full-stack application using Laravel, React, TypeScript, PostgreSQL, and REST APIs, with authentication, team workspaces, Kanban boards, and real-time functionality.
- Integrated the OpenAI API to convert meeting notes into actionable tasks through an AI task assistant.

Laravel, React, TypeScript, Tailwind CSS, Sanctum, Reverb, OpenAI API

Talaio — Job Application & Career Management Platform Oct 2026

Link: https://talaio.vercel.app/

- Developed a responsive job application tracker using React, TypeScript, Supabase, and PostgreSQL.
- Implemented authentication and user-specific data access to keep each user's application information isolated.
- Built application management workflows and deployed the application, gaining practical experience with cloud resources and deployment processes.

React, TypeScript, Supabase, PostgreSQL, Tailwind CSS, PWA. Google Cloud
